

**A Rectification to Believe In:  
*Maybe We Have a Decent Time for Mark Zuckerberg***

by Sue Kientz

A while back I was tired of using a sunrise chart for Mark Zuckerberg and, poking around AstroDienst, I saw that Kannon McAfee had rectified Zuck's natal to 10:04 p.m. I think this was October 2019 when the *Facebook* founder was in a heated congressional session about the platform's handling of political ads. This time of birth had his progressed Moon of the hearing square his progressed nodes, which seemed a reasonable, explicable figure for Zuckerberg's predicament. So after the news dropped last Sunday about the *Facebook* whistleblower on *60 minutes* accusing the company of knowing that allowing user hate-speech was more profitable for them, and then the big *Facebook-Instagram-WhatsApp* outage happened next day, I got out that Zuckerberg 10:04 p.m. chart to see Whatshappened. Progressed to Monday, October 6, 2021, I was gratified to see his progressed Moon and p. Sun in a T-square with p. Neptune, in critical degree Zero Cardinal! WOHOO that's a GOOOOOOALL for rectification. Congratulations, Kannon McAfee! I hope you similarly stood on a coffee table and shouted GOOOOOOOOOOAAAAAAL!!!!

As almost the perfect figure for a big ole scandal, p. Sun opposite p. Neptune is painful, but square p. Moon you can almost hear his wife yelling at him, "I TOLD YOU, MARK, not to BLAH BLAH BLAH," making it all that much worse. Or perhaps at the same time, his pool flooded the house when he took a nap after sticking the hose in it to raise its water level a few inches. (Anyone remember Tom Snyder on *The Tomorrow Show* telling how that happened to him? Will never forget his hilarious confession, and I'm proud to get to use it in an eNews issue.)

Mark Zuckerberg has been enjoying his progressed Sun/Venus/Mercury cluster sextile p. Makemake and trine p. Pluto these past years, but those exciting, power-soaked good

times are gone. Maybe he'll find solid ground when progressed Mercury takes the lead and arrives trine p. Saturn and opposite p. Jupiter (p. Venus and p. Sun will follow). That will start in 2026. Maybe he'll fix Facebook by then.

**Sue Kientz**, author of **More Plutos** (2015), has studied astrology since 1977 and specializes in the new Dwarf Planets (Eris, Makemake, Haumea, Sedna, Gonggong, Orcus, and others). Currently writing a general-audience book on the Dwarfs, Sue casts their addition to Astrology as a transformational breakthrough, comparable to Medicine's discovery of microorganisms. Visit **MorePlutos.com** to read free book chapters from *More Plutos* as well as other published articles including archived NCGR eNews pieces, Dwarf Planet keywords, and other fun facts.
