Whether the Russians capture or kill Ukrainian President Volodymyr Zelenskyy, or he ends up conducting an insurgency while in hiding or from a neighboring allied country, Zelenskyy will win this war. Dead or alive, he is already a fiery inspiration and has passed into heroic status through his defiant determination and persistent public communications regarding the senseless destruction of his country and the ensuing hardship of his people. Born Sun/Venus square Sedna – see natal(1) and progressed bi-wheel below – he is suffering and determination personified, both Sednan traits (think of Sedna as Saturn and Neptune combined, but vastly weightier in power due to its 11,400-year orbit). And right now at 44 years old, Zelenskyy's progressed Sun is semi-square progressed Sedna. This is his defining moment, when his inherent Sednan stubbornness is most appropriate and vital to reaching this apex of his life.

Zelenskyy became president through an improbable route. He appeared in romantic comedy films and television shows, represented by his natal Sun/Venus semi-square Neptune and square Dwarf Planet Quaoar (named after a god who danced and sang the world into existence, Quaoar enjoys playing and takes chances, and is therefore prominent in charts of actors, entertainers, sports figures, and comedic pranksters). But before this entertainment career, Zelenskyy obtained a law degree, an interest depicted by his Sun/Venus opposite Mars/Dwarf Planet Orcus (the latter found in charts of those who prize order and rules, Orcus can also denote obsessive-compulsive disorder traits, as there's a high desire for perfection). Taken altogether, this is quite a mix – he has a flair for the dramatic and can engage an audience, and yet he has knowledge of the law and maintaining order, all helpful characteristics for a political leader.

Along the way, President Zelenskyy even performed standup comedy, aptly represented by his rising Gemini Jupiter, sextile Saturn in Leo (denoting he was able to make a career out of being funny). Just prior to entering politics, he actually played a fictitious president of Ukraine in the TV series *Servant of the People* that debuted with his progressed Mercury (17 Pisces 46) square his progressed Neptune (18 Sagittarius 14) and trine progressed Uranus (16 Scorpio 20). A scant four years later, he was elected as the REAL Ukrainian President,

with progressed Sun (16 Pisces 49) now trine progressed Uranus (16 Scorpio 04). Mercury then Sun trine Uranus in progression shows a foretelling and then the reality of his achievement. Unfortunately, also like Mercury, his progressed Sun squared progressed Neptune (18 Sagittarius 16) as former U.S. President Trump tried to bribe him with javelin missiles in exchange for a phony investigation into soon-to-be U.S. presidential candidate Joe Biden.

And if his life story sounds too much like a movie script, we might get the happy ending that we so wish would come any day now, but which may have us glued to the TV for a couple of seasons. His progressed Sun is just a few degrees (and therefore years) away and applying trine his progressed Mars.(2) News outlets and the U.S. government are already signaling the public to brace themselves for a long insurgency, as no speedy resolution seems in sight. But that's OK, because we can look ahead as many others cannot. When that progressed Sun/Mars trine perfects, his progressed Moon will bisect them, creating a minor grand trine.(3) Sounds like the final episode will be worth the wait.

I have confidence in Zelenskyy accomplishing this seemingly improbable outcome because I know Dwarf Planet Sedna, and even more importantly, I've seen what Sedna can do in exactly the scenario in which Zelenskyy is embroiled. Winston Churchill, as British Prime Minister, faced down his own menace from the east, Adolf Hitler. Churchill was born Sun (7 Sagittarius 43) trine Sedna (1 Aries 36). When the British had to evacuate Dunkirk or risk losing what was left of the British Army, Churchill's progressed Sun (14 Aquarius 22) was also semi-square progressed Sedna (1 Aries 43), like Zelenskyy. Days later he went before Parliament, just as President Zelenskyy did recently via Zoom, and spoke the famous words that Zelenskyy reframed for his own situation, that they, the Ukrainians, will never surrender. That's determination, even in the face of the extraordinary pummeling his country and his citizens are taking on all sides.

Both 1940s Britain and 2022 Ukraine faced and will face hard times. But one hopeful detail is, Zelenskyy's progressed Sun semi-square to powerful Sedna is already separating. Churchill didn't have that benefit until after the British defeated Rommel in Africa. Only then could he say, "...this is not the end. It is not even the beginning of the end. But it is, perhaps, the end of the beginning." (4) With Putin finally pouncing, the world was able to react at last, and it has with drastic measures. That was Zelenskyy's end of the beginning.
